Academic Circular

Instructions to III Year students to register for Open Elective course for 2020-21 Even Semester.

Open elective – Open elective courses will be offered by every department in engineering to other departments. A student has to choose a course which is not offered by his/her department. Every student has to complete TWO open electives offered in their 6th and 7th semesters. The instructions to register for an Open Elective course for 2020-21 even semester is given below:

- The students should look into the courses offered in their branch (3rd to 8th semester) and select an appropriate open elective. (courses cannot be repeated. For example - EEE/ECE/EIE have a course on *Signal Processing*. Therefore, these branch students cannot take any open elective on Signal Processing) Contact your faculty advisor for guidance.
- The list and syllabus of all open electives being offered in 2020-21 even semester is uploaded in the college web portal.
- The registration for open elective courses is on **First-come-first-serve basis**.
- A minimum of 20 students need to register for an open elective course to be offered. The maximum number of student registration for an open elective course is in general 50. For some courses, the maximum registration is 100 (it will be indicated during registration)
- In case of minimum registration not being met, the student must opt from the remaining available open elective courses.
- A mock open elective course registration is scheduled on 2nd February, 2021 at 10-30 AM.
- The final open elective course registration will be announced shortly.
